PTO 01

PRODUCT SHEET

Last update:
04/13/2023

FEATURES

Protects the operator from direct contact with the upper part of the chuck lathe and from lubricant-coolant projection. Frontally and laterally attachable at the base. Equipped with semicircular shield, adjustable until near the machine head. Complete with safety microswitch.

1. Frontal and lateral anchorage stirrup
2. Safety microswitch main box - 90° rotation - n. 2 NC contacts
3. Shield connection clamp with support arm - in pressed steel
4. Shield structure - in tubular steel
5. Thermo-shaped shield - in shockproof and oil-resistant plastic material

Classic safety guard equipped with steel-framed shield. The only one positionable until near the machine head. Available in various dimensions.

CODE	A	B	C	D	KG.
